

POLYETHYLENE PIPE-WITH-THE-STRIPE®

PRODUCT INFORMATION BULLETIN

IPEX Pipe-with-the-Stripe is the preferred choice amongst polyethylene pipe users in Canada.

Advantages include:

- Several pressure rating options
- Choice of Standard or CSA certified pipe
- Convenient sequential footage marking
- Our patented stripe identification system
- Available in convenient coils or reels

The smooth interior of Pipe with the Stripe virtually eliminates interior scaling or deposits from aggressive water. So the water supply line stays cleaner longer – providing optimum water quality. Pipe-with-the-Stripe is also very flexible, ideal to withstand underground soil loads from frost or settlement.

Applications

- Waterwell Tubing
- Irrigation Systems
- Municipal Water Service Lines
- Maple Sap Collection
- Ice Skating Rinks

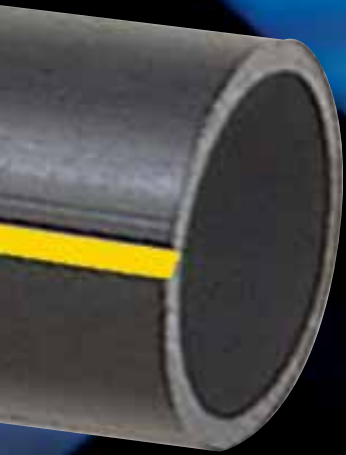

Please see our Volume IV: Polyethylene “Pipe-with-the-Stripe” Piping Systems Technical Manual for complete product, engineering and design information. Copies available from your IPEX representative or in the online Technical Library at www.ipexinc.com.

Pipe Pressure Ratings

Color	psi	kPa
Utility Black	50	395
White Stripe	75	515
Red Stripe*	75	515
Blue Stripe	100	690
Green Stripe*	100	690
Gold Stripe*	160	1100
Black Stripe	100	690
(Poly blue)	150	1035
'Super D'	200	1180

* Pipe certified to CSA B137.1 for potable water

Dimensions

Nominal Size		Average Inside Diameter	
inches	mm	inches	mm
1/2	12	0.62	15.8
3/4	20	0.82	20.9
1	25	1.05	26.6
1-1/4	32	1.38	35.0
1-1/2	40	1.61	40.8
2	50	2.06	52.4
3	75	3.06	77.6

Notes:

- (a) gold Stripe dimensions are Copper Tubing Size (CTS) and differ from the above values;
- (b) Wall thickness dimensions are shown in Pipe with the Stripe Technical Manual
